Overview

Passionate, strategic, and detail-oriented Technical Writer with 10+ years of experience producing documentation for complex software environments, including cloud platforms and FDA-regulated devices. Skilled in developing user-friendly documentation, building and managing knowledge bases, CMS migrations, and optimizing workflows for agile teams. Bonus: TEFL-certified English teacher.

Professional Experience

Senior Technical Writer

Medtronic – Lafayette, CO (Hybrid) • September 2025 – Present

- Serving as department editor and publishing authority within six months, performing final reviews and releasing documentation across 15+ Surgical, Endoscopy, and AI medical device products.
- Authoring and maintaining FDA-compliant User Guides (IFUs), including diagrams, appendices, and regulatory labeling, in close collaboration with Regulatory and cross-functional stakeholders.
- Managing the migration of departmental publishing to Medtronic's Windchill global customer documentation portal, improving consistency, traceability, and compliance.

Technical Writer

Datex – Clearwater, FL (Remote) • June 2023 – May 2025

- Led successful CMS migration from MadCap Flare to Document 360, improving documentation scalability and online help interactivity with context-sensitive support.
- Created and maintained 100+ user guides, tutorials, and contextual help articles for a newly launched cloud-based platform.
- Authored upgrade guides, technical release notes, and manuals for 5-10 enterprise SaaS products in collaboration with Product and Engineering teams.
- Implemented agile documentation workflows, increasing delivery speed and prioritization.

Technical Writer

Enlitic – Fort Collins, CO (Hybrid) • July 2021 – November 2022

- Built a comprehensive MadCap Flare knowledge base from the ground up within six months, including product, admin, and integration guides.
- Partnered with SMEs and conducted independent research to produce compliant, accurate documentation for FDA-cleared medical imaging software.
- Streamlined authoring processes of a fast-paced agile start up, improving turnaround time and documentation accuracy.

Technical Writer & Product Specialist

Trace First – Fort Collins, CO (Hybrid) • October 2018 – July 2021

- Developed a content library of 500+ documents and 50+ instructional videos.
- Wrote product specs, schemas, user manuals, release notes, configuration docs, and marketing content including monthly campaigns for the SaaS platform.
- Managed customer implementations, conducted training, and supported dev team onboarding.
- Performed QA and testing of GitHub tickets, including API validation using Postman.
